SPARE PARTS READILY AVAILABLE

For each MGA SAW™ produced, at least 24 sets of spare parts kits are produced and are available.

INTEGRATED BATTLE OPTICS

The MGA SAW™ is offered with US-based Trijicon optics; one of the best battle-optics in production.

MULTI-CALIBER RECEIVER

All MGA SAW™ Gen 3 receivers are multi-caliber and can accept calibers including: 6.8mm SPC, 7.62x51mm, 5.56x45mm, 7.62x39mm and more.

IMPROVED BARREL LIFE

Unlike old fashioned chrome-lined barrels, MGA SAW™ barrels offer greater longevity due to the use of Nitromet (Nitrocarburized/QPQ, aka Melonite).

IMPROVED BUTT-STOCK CHOICES

Due to the use of an improved internal recoil buffer, all MGA Gen 3 receivers can use ANY M4-style of butt-stock, which most operators prefer. The MGA SAW™ can also use any FN MINIMI® stock.

ADVANCED SUPPRESSION

MGA SAWs™ feature suppressors from US-based OSS and GemTech who make some of the best sound suppressors for machine guns.
